January 31st, 2023 has gone down as a historical day in the annals of our Congregation and a milestone for us Montfortians, being the three hundred and fiftieth birth anniversary of our founder St. Montfort. To mark this historical occasion, we have as institutions and Provinces organised befitting programs honouring and paying rich tributes to this great saint of the catholic church. Montfort's spirituality, which encapsulates the spirituality of the catholic church, is our guiding principle in our quest for holiness, ably accompanied by Mary our Mother.

Montfort's holiness is not just limited to his spirituality but more to his life of radical following of Jesus which many of his compatriots thought was madness. It was the outcome of his deep spirituality of trusting in the Providence as God, as his Father, Love of Eternal Wisdom and the Cross and Marian devotion that he was able to renounce himself completely for his Lord and Master Jesus and serve Him in the poorest of the poor.

Over the centuries, his life and spirituality has inspired many, and thousands of Priests, Brothers and sisters of the three Congregations of Company of Mary, Institute of Brothers of St. Gabriel and the Daughters of Wisdom to walk in his path of radical following of Jesus. Today we are called to be the living embodiment of his life and spirituality and carry forward the life of service to the poorest of the poor as Brothers, in our mission of education and empowerment.

Three hundred and fifty years, though a flicker of moment in the history of this planet, is long in human terms and the world has transitioned from manual to mechanical to automated technology and now we are living in a global world ruled by corporate conglomerates where man is sacrificed at the altar of mammon for profit and power and the statistics show the rich are becoming richer and the poor, poorer.

The worst is not over, as we are at the cusp of digital technology which itself is at a nascent stage now, and we can imagine the future to come with the digitalization of living, work, business transaction and human relationships. Living during this time of transition, calls for deep introspection of our mission as religious following Montfort, for whom the poor were his brothers and sisters and the priority of his mission. What place do the poor have in our heart and our mission in a market driven economy of corporate world, where firstly, we have to compete to sustain our education mission without compromising the gospel values and secondly to find alternate means to make ourselves relevant in the times to be present to stand with the poor and marginalized.

Bro. Ronald Noronha

[Mary] is the safest, easiest, shortest and most perfect way of approaching Jesus and will surrender themselves to her, body and soul, without reserve in order to belong entirely to Jesus.

## Create Fraternity and Awaken Hope

Nowadays, consecrated life is faced with an opportunity and a very special task: that is of creating, inspiring, enlivening and sustaining everywhere authentic fraternal communities that radiate friendship, support and reconciliation.

Consecrated life must strengthen community life, to which new generations are very sensitive. It must accommodate the cultural and spiritual diversity of its members, knowing that living community is already a mission. It ought to be open ad extra, towards all those excluded from history. We can ask ourselves: what is required of a community so that it can transmit to others the appeal of living together, united in diversity, creating heartfelt and humanizing spaces that are open and joyful for each person and for others?

To achieve this, it must progress: -

- from a life in common to a community of life rich in personal relationships, welcoming, engage in dialogue, discern, use of freedom responsibly, showing concern for the other and for accepting what is diverse. It is more than mere physical presence, what is worth is the melding of spirit and the union of hearts;
- from structures that make individuals childish to supports that can form people in freedom. It is not uncommon that, even with good will, certain structural supports have been multiplied making people childish, without creativity or imagination; they were agents more loyal to executing orders than people able to discern, from their own responsibility and their own loyal knowledge and understanding to live the mission assigned to them. We do not help people to grow in maturity and responsibility by forcing them, but by encouraging them.
- from an impossible uniformity to communion in diversity. Every Christian and religious community is a pale image of the Trinitarian community. And the Trinitarian community is realized in difference not in uniformity: each divine Person is different and works differently. The unity of the Holy Trinity is made up of the oppositions and differences of the three distinct Persons, co-sharers in love;
- from a fortified trench to an open field where we battle for the Kingdom. An introverted community is a neurotic community. Our communities would live in a healthier and more airy manner if they opened up their doors and windows to the world; or if they came down to the streets and accompanied the caravans of men and women, listening with their hearts on how much people suffer, struggle and love. The place where we stand is not the convenient tail end without risks, but the line of fire where we fight for justice, solidarity and peace.

Golden Jubilee celebrations of Rev. Bro. Mathew M. R.

350<sup>th</sup> Birth Anniversary

# Montfort School Gopalapuram

Montfort school S. Gopalapuram celebrated Bro. Mathew's Golden Jubilee celebrations with much enthusiasm and zeal. Whole campus was decked with beautiful decorations. There came multitudes of Tribal people to express their love towards Bro. Mathew. Montfort school was very happy to host this celebration in honour and respect of Bro. Mathew and other Jubilarians.

A celebration that calls us all to rejoice over the marvelous deeds worked by God through this simple, humble and dedicated brothers. God has purpose for all of us and here we see someone who completely cooperated with God and put all his trust in Him. He developed his love for the tribals in the Novitiate period and took a promise to spend his whole life of the benefit of the tribals and poor people only

It has been a pretty remarkable fifty years by any standards. There have been ups and downs, but anyone who can remember what things were like in 1983 or 44 years of service as a simple brother to all the tribals, appreciates what immense changes have been achieved since then. This is only one example of the many. He has contributed to the growth of each tribal person in his own capacity. All I admire in this simple and frail man is this "His staunch faith in God and love towards the tribals".

50 years is a very, long period. Life must have been surely tough those days and yet, worked his way through. But his untiring quest for serving in various capacities is quite amazing. We call him dearly "Doctor Brother" and he qualifies that very well. The amount of love and admiration this person draws from tribal people, students, co-workers, friends etc., is overwhelming and I am really moved.

I must place on record about his landing in this SAVARA region. His ardent desire to serve the tribal and the poor, made him to land in this region. It is because of him that we all are gathered here today. It is really God's grace that he has sent bro. Mathew into our mists. I heard many stories of many people telling me that it was bro. Mathew who saved many lives, he used to take patients to hospital by his cycle, bike and made arrangements to go to many places.

So the stories goes on and on...dear Brothers and readers of the Outlook we are really fortunate that we have a very dedicated and well committed for the cause of Tribals in the personality of Bro. Mathew. I am quite convinced that he is leaving his footprints in the sands of time and he'll be remembered always. Let us also remember and pray for those people who made an invaluable contribution in his life to be what he is today especially his parents and the school in particular.

Let us celebrated and enjoyed every moment of the program and prayed that God may bless him more and more that he may find a great sense of satisfaction in the years to come.

## **Canonical visit of Provincial:**

Bro. Provincial appreciated the all the good work that brothers of the Gopalapuram community is doing. He encouraged and assured all the possible support to every member of the community to go boldly with the missionary dynamism.

"Christmas is a celebration of joy, love, hope and peace."

On 24th December we had a Christmas celebration in our community. We began with meaningful prayer. The prayer was conducted by Edison. Soon after the prayer we went to the Kongarpalayam parish. Before the Holy Eucharist, we had a small and sweet culture program. After the vigil mass we came back our community and we arranged a camp fire, the fire was lit by Rev. Bro. Alexander & our community brothers and we danced. On the 25th we had a sumptuous lunch as well. Before that, we exchanged our gifts with Christmas friends. COMPETITIONS:

I am happy to pen down about activities of programs that we had in the season of grace, on 16th December we started our Christmas holidays up to the 30th of December. During these holidays, we had 50 different categories of competitions. We also had THREE teams namely; DJ MONSTARS, PLAYERS OF FLAME and SEVEN AVENGERS. These 50 categories of games were well conducted by our Director to bring out all our hidden TALENTS, SKILLS, POTENTIALS and GROWTH IN LIFE. Especially to discover WHO ARE WE ? It was a wonderful experience for us to hone our brain. On the final day, Bro. had invited THREE judges. We were surprised that these three judges who witnessed the program were thrilled and astonished by seeing our performance. They were happy to see us, growing spiritually, emotionally, mentally and physically. In the end, we received medals from our neighboring community Sister and Brother.

"There is a sense in which no gift is ours, till we have thanked the giver."

THANK YOU DEAR BROTHERS.
